See what awaits you in Navarre...

# Very close to you NAVARRE, ONE STEP AWAY

**Navarre** shares a border with France, is just over three hours by train from Madrid, and its network of motorways and roads is one of the best in the entire country.

Our province has very good accessibility to the main communication routes, as well as the existing connections by train and by plane. Pamplona has the Noáin airport and is less than 250 kilometres away from six other airports.

## BY ROAD

The Navarre road network has a radial structure and its centre is Pamplona. Its two main axes cross the Community from north to south, connecting Spain with Europe:

- N-121-A and N-121: Behobia - Pamplona and Pamplona - Tudela.
- AP-15: Navarre Motorway (Tudela-Pamplona-Irurzun). In addition, various free motorways link Navarre with the main neighbouring cities: A-10, A-12, A-15, A-21 and A-68.

## BY PLANE

Navarra has direct and daily flights to Madrid, departing from Noáin airport, located 6 km from Pamplona. It also has flights to the Canary Islands. And within a radius of 250 km there are 6 airports with daily connections to the main Spanish and European cities.

## BY TRAIN

The Navarra train service has regular lines that connect, among others, with the main cities of the peninsula: Barcelona - Madrid - Bilbao - Irún A Coruña - Valencia - Zaragoza, etc...

## AN EXQUISITE GASTRONOMY

We have a gastronomic offer with traditional flavors legacy of our ancestors and fresh raw materials of the highest culinary quality.

The products of the garden (artichokes, piquillo peppers, cardoon, asparagus, beans) are known internationally.

We also have delicious meats, such as veal and Navarrese steak, spectacular dishes such as ajoarriero and tasty desserts such as Roncal cheese or curd.

D.O. red, rosé, white wines...

## THE UNIVERSAL PARTY SAN FERMÍN

In July, Pamplona is the setting for the universal festival. Thousands of visitors from all over the world come to see it and enjoy its joy.

The street becomes the main star, filled with music, dyed white and red and celebrating large and small rites such as the emblematic and spectacular running of the bulls.

On July 6th at noon, thousands of people burst into joy when the "Viva San Fermín, Gora San Fermín" and the Chupinazo are heard from the balcony of Pamplona City Hall.

## KINGDOM OF NAVARRE THE HISTORY OF A KINGDOM

Landscapes and villages, castles, churches and fortresses. The memory of the Kingdom of Navarre is present throughout the territory and tells us about the history of kings and nobles that it was and what we are today, of our history and our character.

## AUTHENTIC PEOPLE TRADITIONS THAT ENDURE

Stories, legends, popular festivals, ancestral traditions... We Navarrese are faithful to what we were and what we are: authentic, welcoming and friendly.

In Navarra, you will feel good.

## LAND OF CONTRASTS NATURE THAT EXCITES

Feel the contrast between the Irati Forest, the Bardenas Reales desert (Biosphere Reserve), the peaks and valleys of the Pyrenees, the rolling mountain ranges of the Zona Media and the fertile plains of La Ribera.

## ENTRANCE DOOR WAY OF ST. JAMES

The authentic Camino, the French Way, declared a World Heritage Site by UNESCO, enters Spain through Navarra.

Feel the traces left by pilgrims over the centuries and a unique and singular life experience.

## PAMPLONA IS MUCH MORE

Situated in a privileged enclave, equidistant between the Cantabrian Sea, the Pyrenean peaks and the Bardenas Reales desert, Pamplona has been more than used to receiving visitors since time immemorial. And it does so with open arms, generous and welcoming, willing to share its secrets with all those who have the privilege of entering its walls.

Pamplona is internationally known for the San Fermín festivities, which attract thousands of people to the Navarrese capital every July 6. The celebrations begin with the explosion of the Chupinazo, which unleashes nine days of intense merriment in which everyone, neighbors and visitors, tie the red scarf around their necks to enjoy together the magic of the best festivals in the world.

The incomparable emotion of the bull runs, the spectacular dance of the giants or the jocose joy of the peñas are moments difficult to forget for any lucky one who has had the pleasure of enjoying them. But Pamplona is much more than just the Sanfermines.

The thousands of pilgrims who have been walking its cobbled streets for centuries on their way to Santiago de Compostela and enjoying the hospitality of its people know this very well. Pamplona is the first city to follow this ancient route, and its legacy remains very much alive in every corner, on every street, in every square. Today, the Camino de Santiago is also the backbone for getting to know the vestiges of medieval Pamplona and discovering its fortified churches with high towers, among which the imposing cathedral of Santa María la Real stands out.

A walk through the Old Town is a history lesson. The Renaissance wall, one of the first bastion systems in Europe and certainly one of the best preserved, brings us back to times past when the city needed to defend itself from foreign attacks. Today, walking along the Paseo de Ronda taking in the spectacular view afforded by the centuries-old walls is a pleasure for the senses and a pleasant way to get to know the city and its evolution over the years.

And after so much walking, there is no better way to regain strength than by tasting some delicious pinchos or dishes prepared with the best local products and with the care of the expert hands of some of the best chefs of today. In this city, gastronomy does not play a secondary role. Any visitor will quickly realize this when walking along Estafeta Street and mingling with the locals at aperitif time. Pamplona is therefore a city with good services and a great quality of life, with spacious green areas practically around every corner and pleasant squares for walks. A city in which the weight of history has left its mark well marked. In short, a friendly and welcoming city, where one always feels welcome.

## WINE AND ART

### Bodega Otazu

Otazu is a family-run wine estate in the north of Spain, with more than 150 works of contemporary art integrated into its spaces.

Favored by a unique microclimate, it has its own protected designation of origin, D.O.P. Pago de Otazu.

All its wines are made with Cabernet Sauvignon, Merlot and Chardonnay grape varieties, capable of expressing the particularity of the geography of its 93 hectares of vineyards.

Centuries of winemaking tradition, reflected in a 12th-century manor house and a century-old winery from 1840, inspired a family and a team committed to making high-quality wines in an environment where wine and art merge in perfect harmony.

Otazu was recognized as the 'Best Winery Open to Tourism' in the 5th 'Ruta del Vino de España' Wine Tourism Awards, an award given in 2020 by the Spanish Association of Wine Cities (ACEVIN) "for being a winery that places the world of wine at the same cultural level as the great works of contemporary art and clearly expresses the union of wine with history, nature and art".

Likewise, it was also awarded the 'A' Prize for Collecting' in 2020 by the ARCO Foundation, where the work of the Otazu Foundation in the conservation and dissemination of contemporary art in the Winery was recognized.

The concept of wine tourism in Otazu contains a fusion of art and wine that can be enjoyed through guided tours, paired tastings, meals or personalized events such as weddings or business meetings.

# A THOUSAND YEARS OF MYSTERY

## Arínzano

For almost 1000 years, Arínzano has cultivated the mystery of Time and Nature. Located in an incomparable valley, magnified by its microclimates, the stone, the earth and the water give rise to an exceptional terroir conducive to the singular expression of three great varieties of wine.

The estate has been successively owned by monks, lords and wine-growing families, but it has always had a vocation linked to wine. Today, in the centre of this magnificent valley crossed by the Ega River and the Cierzo wind, Arínzano reveals wines that retain the strength and grace of Time and Earth. The road that leads to Arínzano is like the first page of a thousand-year-old story that still retains all its mystery today. The road meanders between rows of vineyards, oaks and olive groves before reaching the winery, at the end of a bridge so narrow that the visitor has no choice but to slow down when crossing the Ega River.

Time has worked its magic on these rich and diverse lands and allowed them to become the unique terroirs they are today.

La Torre de Armería, La Casona and La Iglesia are the silent witnesses of this mysterious transformation. It is always time that orchestrates the secret alchemy between the living and breathing grape, the wood and the bottle.

Time stands still when tasting the wines. Silence allows us to better appreciate this spiritual and physical emotion, the fleeting moment during which we can fully grasp the grace of eternity. As happens when we first see this exceptional estate, tasting its wines increases our sensitivity to the mystery and magic hidden here, but without ever fully revealing its secrets.

Time belongs to it, it is both its product and its master.

# TOURS AND EXCURSIONS TRAVEL ORGANIZATION

## DISCOVERING PAMPLONA Novotur Tourist Guides of Navarre

### DISCOVERING PAMPLONA

Pamplona is the capital of Navarre. A city where history and traditions go hand in hand. On this tour, we will discover its historical past, visiting the old burghs (neighbourhoods) of the city. We will visit some of its incredible churches and, if we are interested, we can go inside to enjoy the Cathedral.

We will visit our magnificent fortifications, while watching the pilgrims on the Camino de Santiago pass by.

Of course we will run along the route of the 'encierros' (running of the bulls). We will sing to the Saint in Santo Domingo. We will skid around the bend of the Estafeta and we will reach the end of the route, the bullring. We will also see the Town Hall square where the 'chupinazo' is fired on the 6th of July. And we will finish the visit in the beautiful Plaza del Castillo.

The Plaza del Castillo is a strategic place to end our visit, as from here we will be able to go and taste the famous 'pinchos' of Pamplona.

Just a stone's throw away are the two most important tapas streets in the city, Estafeta and San Nicolás.

There are 26 hotels that make up the Pamplona Hotel Association, an entity that strives every day to offer quality accommodation, with recognised rates of satisfaction from national and foreign clients, as well as a special sensitivity towards medical-health patients who visit us throughout the year.

On the other hand, we have ANET (Navarra Association of Transport Entrepreneurs), which provides medical patients with a wide range of companies for renting vehicles with or without drivers, as well as a series of companies for renting buses.

We also have an official travel agency for the Navarra Health Tourism project, Viajes Navarsol, located in Pamplona, and which offers a wide range of holiday trips throughout Europe, as well as multiple connections within the national territory.

Finally, we would like to highlight the support provided by both the Government of Navarra and the Pamplona City Council.

# TRANSPORT

## RENTAL OF MEANS OF TRANSPORT

Navarra is a region where internal travel is an advantage for tourists. There are four highways that cross the territory from North to South and from East to West, as well as several national roads that are ideal for motorcycles and riders.

We are talking about the only region in Spain that offers, from Pamplona and in an hour or less, mountains, sea and desert. It is undoubtedly the most diverse offer in southern Europe.

For visitors arriving by plane, the most advisable option is to rent a car with or without a driver or a bus in the case of groups.

In Spain, the rental of vehicles with a driver for the transport of passengers is regulated to offer the maximum guarantees and security to the client.

This type of service is offered with high-end vehicles, 24 hours a day, 365 days a year, with punctuality, seriousness and discretion, at a national and international level.
